

Primary Care at Home

Medical Care for Elders that Delivers Peace of Mind

Who Do We Serve?

Older adults (55+) with chronic illness who need help getting to a doctor's office

What Do We Do?

We provide health care for elders with advanced illness in the comfort of their homes. Our high-level service includes:

- 1 HOUSE CALLS** Our doctors, nurse practitioners (NPs), and social workers specialize in primary care of older adults. We see patients regularly to coordinate their routine, urgent, specialty and hospital care.
- 2 24/7 ACCESS** Our team is available by phone 24/7 for urgent concerns and can make urgent visits within 1–2 business days.
- 3 SOCIAL WORK** Our social workers help patients and families find resources, assist with life transitions, and provide counseling and caregiver support.
- 4 MOBILE TECHNOLOGY** We do in-home tests such as blood work, X-rays, and ultrasound. We offer a secure online messaging tool to communicate with our team. And we provide televideo visits when needed.

Payment for Services

We accept Medicare, Medicaid and other insurances that cover our medical house call visits. Standard co-payments do apply.

Areas We Serve

We serve areas in Northern Virginia and Northwest DC/Chevy Chase, MD. Visit our website for a full list of zip codes that we cover.
